

Every child can choose an activity to complete each week. They can do it on their own or with an adult or an older sibling. Let me know you have finished an activity by dating the box below. It would be great to see them, use your Home Learning Book or take a photo and upload it to Google Classroom. Have fun!

Autumn 2 - Heroes! People who help us Reception's Home Learning Activities

Can you design an alien and write a story or a story map? What adventures do they have?

Design and make a superhero costume!
What clothes can you recycle to make it?

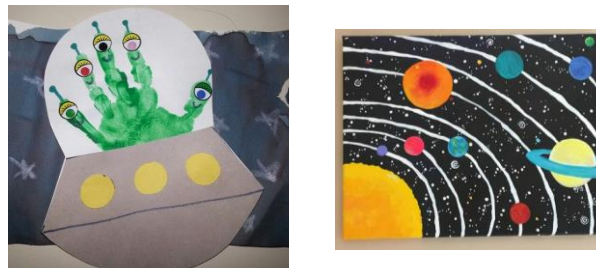

Local heroes! Who helps us where we live?
Would you like to help people? What job could you do when you're older?

Numbers and Counting! Can you make a board game and practise using a dice? Or even use a game you have, try using two dice and add the jumps together!

Science and Space! Can you find out some facts about our Solar System? You could draw your favourite planet or invent a spaceship!

We are learning about celebrations in different cultures. Can you share any celebrations your family enjoy?
