

Autumn Term 2 Year 2 Home Learning Grid

Choose one task to complete each week. Your tasks will also be available on Google Classroom so you can choose how to share your learning - either online or by bringing your home learning book in on a **Wednesday**.

You will have a spelling quiz each **Friday**, you will have a whole week to learn your new words - try your best to practise every day and remember, **have fun with your home learning!**

English

Write a set of instructions about how you made your Houses of Parliament model or, how you would make it. You will need to include materials needed, equipment needed and method. Have a look at the example below and use this as a guide to help you write your own instructions.

How to Make a Papier Mâché Globe

Are you learning about the continents of the world? Read on to discover how to make a papier mâché globe of your own to help you to remember them.

You will need:

- a round balloon
- lots of strips of newspaper about 2cm wide
- a bowl of water and flour mixture (one cup of flour and two cups of water)
- an atlas
- a continents of the world sheet
- some blue paint and paintbrush
- a pack of felt tip pens
- a pair of scissors
- some glue

1. First of all, blow up the balloon gently. Don't let it burst.
2. Ask a grown-up to help you tie the balloon if it is tricky.
3. Dip the strips of newspaper in the flour and water mix and slowly wrap the strips all around the balloon until it is covered.
4. Cover the balloon at least three or four times.
5. Leave the balloon to go solid. Place it in a warm, dry place.
6. Next, paint the whole globe blue to show the water.
7. Leave to dry.
8. Colour in the seven continents neatly on the activity sheet.
9. Cut out the continents but be careful with the scissors.
10. Stick the continents in the right position on the globe. Use an atlas to help you if you are unsure.
11. Label the oceans and carefully draw the line of the equator. Finally, label the continents of North America, South America, Africa, Antarctica, Australasia, Europe and Asia.

Science

Can you recreate the life cycle of a butterfly?

RE

This half term we are looking at festivals that are celebrated in different religions, such as Christmas, Eid, & Shabbat.

Do you celebrate any of these in your household? Alternatively, you have a different one - tell me about them - you can write a description or draw a picture of it.

Maths

Can you think of some creative ways to show counting in multiples of 2s, 3s, 5s and 10s?

Design Technology

Can you create your version of The Houses of Parliament? It does not need to be an exact replica, you could make it using empty boxes (or other materials) or you could redesign it totally and create a whole new building!

PE

Create a game to play with members of your household. The game must include 5 different forms of movement (like the obstacle course we did in PE). You could jump, step, hop, crawl, bounce, run, skip etc. What rules will you have? How will the winner be decided?

Free Choice

Is there something that you have done at home that you would like to show us or tell us about?

This is your chance...I am ready to be blown away by your brilliance!!
